

You have been provided markup in labCSS-test02.html. You cannot modify the markup, so this will require working with selectors. This time, you will also be defining the styles within styles/labCSS-test02.css so that it looks similar to that shown in Figure below:

This exercise requires you to use margins, paddings, and borders.

1. Set the background-image property of the <header> image along with the background-size property.
2. For the three colored boxes, you will need to make use of the nth-child() pseudo class selector to give each box its own background color.

Get the <div> elements to sit horizontally next to each other by setting their display property to inline-block.

Paste the screenshot of the changes(only the changes) you made to the file below.

Instruction for submission:

Submit the html and css file.

## Changes:

### labCSS-test02.css

```
# labCSS-test02.css x
week 2 > CSS Lab2 > # labCSS-test02.css > 🚩 header a
1  /* add styles here */
2  header{
3      background-image: url(city.jpeg);
4      background-size: 100%;
5      height: 400px;
6      padding: 50px 0px 0px 100px;
7      font-family: 'Lucida Sans', 'Lucida Sans Regular', 'Lucida Grande', 'Lucida Sans Unicode', Geneva, Verdana, sans-serif;
8  }
9
10 header a{
11     display: inline-block;
12     background-color: #deeppink;
13     color: #white;
