1.  You have been provided markup in labCSS-test01.html and styles within comments in to styles/labCSS-test01.css.

1.Uncomment the styles and add CSS selectors so that it looks similar to that shown in Figure below . You cannot modify the markup, so this will require working with selectors

Paste the screenshot of the changes you made to the file below.

**styles/labCSS-test01.css**

```css
1
2    /* Add selector that will select all elements in the body */
3
4    body{
5        font-family: 'Raleway', sans-serif;
6        font-weight: 300;
7        margin: 25px;
8    }
9
10
11
12   /* Add selector for both heading tags  */
13   h2{
14       font-family: 'Merriweather', serif;
15   }
16
17
18
19   /* Add selector that will select first level headings */
20   h1{
21       font-weight: 900;
22   }
23
24
25
26   /* Add selector that will select second level headings */
27   h2{
28       font-weight: 300;
29   }
30
31
32
```

```css
33    /* Add id selector for parent section */
34    #parent{
35        display: grid;
36        grid-template-columns: repeat(auto-fill, minmax(350px, 1fr));
37        grid-gap: 40px;
38    }
39
40
41    /* Add selector for figures within section */
42    section figure{
43        margin: 0;
44        padding: 10px;
45        border: 1pt solid ■black;
46    }
47
48
49
50    /* Add selector for first <p> elements after <h2> */
51    h2+p{
52        font-style: italic;
53    }
54
55
56
57    /* Add selector for all <p> elements that follow an <h2> */
58    h2 ~ p{
59        color: ■slateblue;
60    }
61
62
```

```css
63    /* Add selector for elements whose alt attribute contains Museum */
64    [alt*=Museum]
65    {
66        border: 1pt solid ■slateblue;
67        padding: 5px;
68    }
69
70
71
72    /* Add selector for links within figcaption that makes them look like a button */
73    figcaption a {
74        display: inline-block;
75        background-color: ■darkblue;
76        color: □white;
77        padding: 1em 1.5em;
78        text-decoration: none;
79        text-transform: uppercase;
80    }
81
82
83
84    /* Add selector for same links hover appearance */
85    figcaption a:hover{
86        background-color: ■slateblue;
87    }
88
89
```
